The House of Representatives has passed an appropriation bill carrying over \$377,000,000 for the Veterans' Bureau. With other soldier relief expenditures, the total for the coming fiscal year will reach about \$450,000,000. A similar amount is being spent in the current fiscal year, bringing the total appropriations for the soldier relief well over \$2,000,000,000.

The Peak o' the World

Cecil B. DeMille's "Saturday Night"

For her—a week of humble toil, then a care-free night at Coney Island.

For him—a week of cultured wealth, then a night in his opera box.

An intimate picture of love that rushed too soon into marriage. Set like a sunburst in glistening fashion. Dancing through haunts where pleasure twinkles among the lights.

CAST INCLUDES:

Leatrice Joy, Conrad Nagel, Jack Mower, Edith Roberts, Theodore Roberts.

COMING—Elsie Ferguson in "Footlights."

It requires no convocation of nations, such as that soon to assemble at Genoa, to determine what is the matter with Europe. Let them abandon militarism and devote the energies of their governments and peoples to production and there will come a steady recuperation from the economic ills that beset them.

The anti-lynching bill has passed the House by a big majority, and will undoubtedly receive the support of the Republican majority in the Senate and become law. It is significant that the opposition to the measure is largely Democratic. For many years the Democratic states of the South have demonstrated their inability to deal effectively with the lynching evil, and it has become necessary for the Federal Government to step in and take a hand at law enforcement.

The exhibits before the Finance Committee of the Senate in the course of the hearings on the tariff bill should be sufficiently convincing to convert the most skeptical critic of a protective tariff. Samples of German articles have been shown that cost but a few cents to manufacture, but are sold in our markets for fifty times as much. The familiar argument of the Democrats that free trade means lower prices to the American consumer is utterly refuted.

SOME SUGAR HISTORY.

The Department of Commerce has published a review of the sugar situation in which attention is called to the loss sustained by both the producers and consumers on account of the action of the Democratic administration in not continuing control of the situation through the Sugar Equalization Board until after the disturbances incident to the war had disappeared. "The loss to the American consumer," says the Department, "amounted to several hundred millions of dollars and was inevitably followed by a crash which has done indefinite injury to the sugar producers themselves."

It will be remembered that former President Wilson, who held control of the Sugar Equalization Board through ownership of stock acquired under the law, refused to authorize the purchase of the 1920 Cuban sugar crop. As a result the price of sugar soared to

unheard-of heights and rationing became necessary. A huge tax was taken from the consuming public in the excess prices demanded. Later on the price dropped and producers, refiners and manufacturers of products containing sugar were forced to dispose at ruinous prices of stocks that had been acquired at the higher levels. Fortunately, this manifestation of Wilsonism, like all the other destructive features of that period of our history, has been left behind and reconstruction, under Republican auspices, is well advanced.

THE COMPROMISE CAME.

The Constitutional Convention compromise plan with reference to Chicago and the general assembly provides that not more than one-third of the senate shall be elected from Chicago, and that representatives in the lower house shall be according to population.

Only six of the downstates held out against this plan, which has about it the marks of a reasonable compromise. The battle between Chicago advocates and radical downstates was carried to the last trench and compromises and concessions were necessary if any program is to be put before the people with any reasonable chance of approval.

It is understood that committees from the Bankers' Association, the Illinois Agricultural Association and the Municipal League lent the influence at their disposal to help along the compromise program.

PAVING PROSPECTS.

Two pavement prospects have been definitely decided upon by the board of local improvement with indications that the other work under consideration will also be adopted. Not all property owners are in favor of these projects, but it is safe to say that more than the usual percentage favor the work. Some of the paving has been delayed for years in the hope of lower costs, and there does not seem to be a prospect of costs that are much below the present level—that is, in the course of the next year.

One reason for the general sentiment in favor of the improvement, in addition to the acute need, is the fact that paying projects are under consideration in so many other cities, and there is the definite feeling that Jacksonville should not be permitted to lag behind. The pavement that does not enhance in value the property it abuts to the full cost of the improvement is unusual.

HAS DONE WONDERS IN TWO YEARS' TIME

Commissioner Haynes Tells What He Thinks Prohibition Has Accomplished.

The New York Post in a recent issue quotes statistics given by Commissioner Haynes, national prohibition officer to show results under the 18th amendment. The figures as given by the commissioner vary in essential details from sources unfriendly to prohibition legislation.

In view of the second anniversary of enforcement of the eighteenth constitutional amendment, the following facts, figures and statements have been compiled by the various departments of Commissioner Haynes:

Approximate cost of operation: Rent, \$126,847.05; telephone, \$17,409.05; supplies and equipment, \$37,255.45; evidence and miscellaneous, \$163,467.50; seizure and sale, \$51,463.90; salaries, \$3,501,209.61; travel, \$1,396,443.51; office expenses, \$980,429.40; estimated total, \$6,274,523.47.

Estimated amount of assessments involving 40,000 cases; penalties under section 35, \$50,000,000; \$1,000 special tax, section 1001, revenue act, 1918, \$500,000; taxes on spirits, wines, etc., \$7,000,000; estimated total, \$57,500,000.

Approximate amount of collections, \$3,000,000. Exact amount of assessments not known for the reason that assessments were not ascertained and recorded separately.

Big Seizures.—Estimated seizures: Gallons of distilled spirits and wine, 950,000; estimated value of property seized during the year, not including property levied for payment of taxes, not distillery apparatus or other property destroyed, \$12,907,693.40.

Miscellaneous property was seized as follows: Automobiles, 600; boats, 40; wagons and carriages, 25; horses and mules, 45; aeroplanes, 1; motorcycles, 5; cash, \$7,500; tracts of land, 10; stocks of merchandise, 7.

Number of federal indictments, estimated, 20,000; pleas of guilty, 17,000; number of convictions, 21,000; number of acquittals, 950.

Wholesale drug companies must now have as a minimum a \$25,000 drug stock, must be bonded dealers, and sales of liquors must not exceed 10 percent of the amount of their gross sales as a drug concern.

All liquor permits authorized for legitimate uses must now bear the signature of the director of the state in which the distillery from which withdrawal is to be made is located.

Enactment of stringent regulations govern transportation of liquor, eliminating to the smallest degree the danger of liquor diverted into illicit channels. Last year's importation one-half of 1 percent of the total consumption of liquor in America the year before prohibition.

Fewer Arrests.

Arrests for drunkenness decreased 60 percent. Liquor withdrawals reduced 50 percent.

Another report: Official chemists report only 2 percent of all liquor seized and examined today is fit to drink.

Upwards of 300 brewers investigated and charged with violations.

Some public officials indicted and some have gone to jail. Others on the way. Manufacturers of whisky from diverted alcohol have been prosecuted. Evidence has been gathered covering the sources of supply, counterfeit stamps and methods of venting the liquor. Violators, high and low, are feeling the effect of the law.

In fifty-nine cities, with a population of 30,000 or over, and a combined population of 20,000,000 (including New York, Chicago, and Philadelphia, official and estimated figures show a decrease in arrests for drunkenness from 316,842 in 1917 to 109,748, notwithstanding bad booze, temporary individual hard drinking, and a zeal to "jug" all intoxicated people.

17,500,000 Quit Drinking.

From various sources it is estimated there were 20,000,000 drinkers in the United States before the country went dry. Of this number there are 1,500,000 who drink occasionally now, and another million of old drinkers who imbibe whenever they can get it. If there were 20,000,000 drinkers when liquor was accessible—and it is doubtful and if there are 2,500,000 drinkers now more doubtful, then 17,500,000 former drinkers have quit—a wonderful record. Only 15 percent of former drinkers are drinking now and these are drinking but 5 percent the quantity of liquor that was formerly consumed, while the entire drink bill of the nation has decreased \$2,000,000,000 a year.

The year 1921 was the healthiest in the United States according to figures submitted by thirty-seven leading insurance companies.

The figures for the first ten months indicate a lowering of the death rate among policyholders from 9.8 in 1920 to 8.24 in 1921.

More prosperous, nondrinking Americans were able to afford automobiles, with the result of 15 percent increase in death from automobile accidents.

The thirty-seven companies supplying these figures transact about 80 percent of the life insurance business of the country.

FINE PROGRAM GIVEN AT WOODSON CHURCH

Father and Son Day Program at Christian Church Sunday Morning — Other Woodson News.

WOODSON, Feb. 7.—The Father and Son day program at the Christian church Sunday morning was a very interesting one. The program was arranged by the pastor Rev. I. H. Fuller, and the men and boys of the church, and was as follows:

10:00 A. M.—Bible Study.
10:45—Devotional period by men's class and two classes of boys.

Song—Stand up for Jesus.
Song—Sunshine in My Soul.
Scripture Reading—John 10:1-10.
Prayer by Paul Jones, Edward Gallagher and Rev. Mr. Fuller.
"Finding the Boy"—Nellie Crain.

Solo—Marion Smith.
Sermon by Pastor—Theme, "The Boy Choosing his Father."
The Christian Endeavor of the Christian church observed the 41st anniversary of the society on Sunday evening by giving a special program. The theme was "Testing Time" and the several program numbers appear below:

Song—Audience.
Prayer—Rev. I. H. Fuller.

Missionary Presentation—"The Test of the 13th"—by young people of the society.

Solo—"Love Thyself Last"—Eloise Self.

Talk by Rev. Mr. Fuller on the meaning of the occasion. A very good offering was made at the close of the program.

Mrs. Martha Masters, Miss Martha Strang, Mr. and Mrs. Jerome Culp and little son all of Jacksonville, and J. W. Campbell of White Hall, were Sunday guests at the home of Mrs. Lucy Grunder.

The Aid Society of the Christian church served lunch at the Rea sale Tuesday and took in approximately \$250 from the sale of sandwiches, pie and coffee.

BIG ELLI WHEEL IS PROMINENT IN DE MILLE'S "SATURDAY NIGHT"

Beyond a doubt W. E. Sullivan, president of the Eli Bridge company was the most interested spectator that viewed the picture "Saturday Night" on Monday night the first date shown here. And thereby hangs a tale. This film gives great prominence to a big Eli Ferris wheel. This wheel was built in Jacksonville and shipped to C. O. Golden, Los Angeles, Calif., August 25, 1920, and is the wheel used in producing this film. After the film had been made Mr. Golden wrote to the Eli Bridge company that his wheel had been used and mentioning that it showed the cable breaking and represented that the wheel could not be unloaded or five or six hours.

This attracted Mr. Sullivan's attention and he immediately took the matter up with the view of ascertaining whether the cable breaking would be any detriment to owners of Big Eli wheels.

Mr. Golden was undecided as to whether it would be a detriment or not and Mr. Sullivan took it up with Col. J. H. Eaton, of Venice, Calif., an attorney, and as things move rapidly in Florida it had to move rapidly in this case. A letter to Mr. DeMille of the Lasky Studio brought a reply from Mr. Fisher, the manager, that Mr. DeMille was in New York and that he would forward the letter to him. Mr. DeMille did not answer the letter and time was growing short when the film was to be released to the public, which date was set for February.

However, a few days later a customer of the bridge company in Chicago sent a clipping from a newspaper that this film would be released simultaneously in Chicago, New York, St. Louis, and other cities on Saturday night January 21st. Mr. Sullivan immediately wired Col. Eaton that if the film corporation intended to ignore his request for explanation to immediately place an injunction on the film.

Col. Eaton immediately communicated this to Mr. Fisher and this brought action and telegrams flew thick and fast between Los Angeles, New York and Jacksonville, with the result that it was arranged for this film to be shown at the studio to Col. Eaton the bridge company's attorney, Mr. Golden, the owner of the wheel, and to Mr. James, attorney for the Lasky's and Mr. Fisher, the manager, that Mr. DeMille was in New York and that he would forward the letter to him. Mr. DeMille did not answer the letter and time was growing short when the film was to be released to the public, which date was set for February.

But that would spoil the plot of the play and as this wheel had a prominent part in the picture and anyone who ever saw a Big Eli wheel would instantly recognize it on the screen. Their decision was not to enjoin it, as it was a big advertisement for the Eli Bridge company and their products. And Col. Eaton advised Mr. Sullivan to see the film at his earliest possible date which was Monday night at Buckthorpe's Rialto theatre.

In commenting on the film Mr. Sullivan said the mechanical features of how these photographs could be taken is what amazed him as it showed the Big Eli wheel absolutely true to life and said how they could make a film showing this cable breaking when in reality it did not break and many other scenes photographed when they did not hap-

NO MORE FREE DRINKING CUPS

There will be no more free drinking cups on the Chicago and Alton passenger trains and hereafter when you want a drink you will have to put a penny in the slot to secure one.

This order has been put in effect to stop the promiscuous waste of drinking cups which have heretofore been free to the traveling public. Children have been found to be the most wasteful of these cups and it has been found difficult to keep the coaches supplied. It is thought that by adding the cost to them they will not be so promiscuously wasted and that the revenue derived will probably pay for them.

WEEK'S CROP REPORT

FOR GREEN COUNTY

White Hall, Feb. 7.—The crop report for this locality for the week ending Monday shows a continued excellent condition of winter wheat. Farmers are thinking harder than they have ever thought, and they are meeting conditions as they present without a shirk. Soy beans are to replace corn to a large extent in the spring planting. As a fertilizer without an equal, they will prepare ground for wheat and alfalfa, and at the same time provide stock food of a high character. For the latter purpose soy beans are rated higher than oil meal, and this has given rise to a movement to equip the oiling mill for the grinding of beans. Soy beans also make good ensilage.

A sample of soy beans at the Pegram pharmacy is from a 144-acre stretch of soy beans near Greenfield, from which the owner threshed twenty to forty bushels, the small black bean making 20 to 25 bushels and the large yellow bean the 40 maximum, the small black bean being the preferable. Chinch bugs do not infest beans, and some of the local farmers will plant beans with their corn this spring in order to ward off chinch bugs. It is the duty of the land-owner of the present day to care and build up the soil so that the succeeding generation will find it better than it is today, philosophies a leading local agriculturalist, and this move in behalf of soy beans is the greatest thing yet undertaken by the farmers.

The average temperature for the week was 32 degrees. The mean maximum was 37.6 degrees and the mean minimum 24.3 degrees. There was 0.47 precipitation on the 1st, and traces of snow on the 5th and 6th. The lowest reading was 25 degrees on the 6th and the highest 53 on the 1st.

ILLS TO LIMIT DEBATE ON BILL

(By The Associated Press)
WASHINGTON, Feb. 7.—An effort by Senator Kellogg, Republican, Minnesota, to obtain an amendment for limitation of debate on the co-operative market bill after 2 o'clock tomorrow failed today after the senate had another four hours debating the measure. The move for debate limitation failed thru objection of Senator Brandegee, Republican, Connecticut, who said at most intricate constitutional questions were involved and he believed to be held to five or ten minutes in discussing such subjects. The debate was desultory day and for the most part confined on legal phases of the proposed grant of authority for organization of co-operative associations and relief for them

from the application of Sherman anti-trust laws. Questions of public policy figured constantly in the discussion, which was participated in by more than a score of senators. Leaders of both sides said that no one knew when a vote would be reached. Chairman Norris of the agriculture committee announced at the close of the session that he expected to speak tomorrow on the measure and it was understood he probably would use the greater part of the day.

MARION MAY GETS APPOINTMENT

WASHINGTON, Feb. 7.—The Rev. Joseph M. Denning of Marion, O., was nominated by President Harding today to be agent and consul-general at Tangier, Morocco. Mr. Denning is pastor of St. Mary's Catholic church at Marion and has been a life long friend of the president.

MILWAUKEE BRIDGE COMPANY TROUBLES

(By The Associated Press)
MILWAUKEE, Wis., Feb. 7.—There is only one point in the United States where the Milwaukee Bridge company can sell structural steel on an even basis with competitors and that is in the city of Milwaukee, according to testimony of Henry M. Merz, vice-president of the company before the federal trade commission today. East of Milwaukee his company's competition is throttled and in western states it is able to do business only because of special dispensation of the interstate commerce commission.

"By availing itself of the fabrication in transit prevailing," Mr. Merz said, his company could land its bridge parts in western points for the same transportation charges as the Pittsburgh Bridge Builder, by paying two cents 'penalty' as he characterized it on every two hundred pounds. To gain this fabrication in transit rate," he explained, "was necessary to buy the steel in Pittsburgh and ship it to Milwaukee where it is fabricated, or cut to required sizes and shapes and sent on to its destination. The total freight charge in such instances, he said, was the thru rate from Pittsburgh plus two cents per hundred lbs. this rate being made by the interstate commerce commission to offset the Pittsburgh firm's thru rate advantages. Mr. Merz testified however, that his company purchased about 75 percent of its steel in the Chicago district on which the fabrication in transit was eliminated. The Chicago purchases he said were made at a price representing a base price in Pittsburgh plus the freight rate from Pittsburgh to Milwaukee a system which is alleged in the present investigation by the commission to work discrimination against the Western Steel consumer.

OFFICERS DELVE INTO HOUSEHOLD GOODS

Aurora, Ill., Feb. 7.—For five hours today the sheriff of Kane county and two lawyers delved into boxes, crates and barrels at Herbert P. Crane's country estate near St. Charles, Ill., in an effort to determine if household goods which Mr. Crane demands his former wife, Elida Piza, return before he pays her \$70,000 alimony, were intact. The goods were shipped from Miss Piza's New York home. The attorneys and sheriff formed an inventory committee appointed by the court hearing Miss Piza's suit to force payment of alimony. Charles Hazelhurst, attorney for Crane, said that only about 50 percent of the total value of the things taken had been returned. Report of the inventory will be made in court Friday.

WILL TRY TO OUST SHERIFF WILSON

Hillsboro, Ill., Feb. 7.—Demands that ouster proceedings be instituted against Sheriff John Wilson of Bond county, under indictment in connection with the \$37,000 robbery of the State Bank of Panama, Dec. 12, were made to State's Attorney Albro by the county board today. The board's action was taken after Wilson withdrew his resignation. Wilson's trial has been continued until April.

HEARINGS WILL BEGIN ON WAGE CUT IN MARCH

Announcement is Made by
Railway Labor Board

(By The Associated Press)
CHICAGO, Feb. 7.—Hearings on applications for increases or decreases in wages for all classes of railway employees except those in train and engine and yard service will be started here March 6, the United States Railroad Labor Board announced today. The hearings for increases or decreases will be held simultaneously, the board announced for all carriers and employees who have filed applications on or before Feb. 20. At present the board announced 45 class 1 out of 208 in the country have filed applications for wage cuts in final form for certain classes of employees while 15 unions including the federated shop crafts have filed applications for wage increases. Other carriers and other employees organizations are about to file applications the board said in a resolution passed today fixing the date for the hearing.

The board's resolution calls attention to the train and engine and yard service employees are negotiating directly with the carriers and considerations of applications for these classes of employees was postponed for this reason. It was also pointed out that rules and working conditions for these classes of employees must be finally decided before wage questions were considered according to the board's promise at the time of the threatened railroad strike last October. The board will be unable to decide all questions of rules and working conditions for the class of employees affected by the hearings before the date fixed for opening of the cases, it was stated.

No limit was fixed as to the period of oral argument, but the carriers and employees effected were asked for suggestions along this line. It is also provided that any evidence of either party to the disputes may be submitted in writing.

MAY PROLONG TIME FOR ELECTING POPE

(By The Associated Press)
ROME, Feb. 7.—Prolongation of the time—now ten days—between the demise of the pope and the election of a new pope to the sacred college for the election of a new pope to the sacred college in general has felt deeply that the announcement of the selection of the pope before the arrival of the American Cardinals might be interpreted in the United States as a slight.

Almost immediately after his elevation to the pontificate Pius XI sent a message to his sister Camilla in Milan saying: "My first apostolic benediction to you and all the family and relatives."

Comment on the personal life of Pius XI, makes particular allusion to his Alpine climbing as his chief hobby. As a boy he traversed the Alps so often that it was said in Lombardy he knew every inch of the mountains. At his birthplace, Deselo, where he lived until twelve years old he was known for his prowess in athletics, jumping especially, so much so that when they saw him capering they nicknamed him the "jumping boy."

His father, in 1870 at Milan, to which city he had removed. The pontiff's crest consists of a shield in two parts horizontally, the upper showing a black eagle with outstretched wings, the lower three dots, with the motto "It passes quickly, signifying the rapid passing of life."

The Pope has confirmed the appointment of Cardinal Caspari as papal secretary of state and the prelate forming the pontifical court of Benedict XV.

MAY ANNOUNCE ATTITUDE SOON

Washington, Feb. 7.—Announcement of the government's attitude toward trade association activities under the recent decision of the supreme court in the hard-wood lumber association case may be made in a day or two Attorney General Daugherty said today.

Suggestions governing the activities of these associations under the law Mr. Daugherty said probably would be presented to Secretary Hoover by Thursday that the commerce department may inform these associations how far they may go in the collection of statistics for publication by the department.

INVITATION OF KING DECLINED

ROME, Feb. 7.—Enrico De Nicola, president of the chamber of deputies has declined King Victor Emmanuel's invitation to form a new cabinet to succeed the ministry of former Premier Bonomi. It was reported this evening. The king's invitation was extended to Signor De Nicola yesterday.

The excessive demand of the various groups for portfolios in the new cabinet was given as Signor De Nicola's reason for declining the invitation.

Together with this announcement came a statement from State Treasurer Edward E. Miller that he would be a candidate to succeed Mr. Rodenberg.

CORN GOOD FEED FOR HORSES AND MULES

Experiments Have Been Going on at University of Illinois.

URBANA, Ill., Feb. 7.—Contrary to the opinion sometimes expressed that corn is not good for horses and mules, the University of Illinois agricultural experiment station has found, as a result of a series of tests, just completed, that sound ear corn properly fed with legume roughage is a healthful and satisfactory feed.

Results of these tests are contained in a bulletin published today by the work of Professor J. L. Edmonds and W. G. Kammlade. According to this publication "recommendations for feeding farm work stock, based on these experiments would be: to use home-grown feeds; to make legume hay an important part of the roughage, feeding it along with ear corn, or preferable ear corn and oats."

"As a general rule, feed approximately one pound of grain and one pound of roughage per

hundred pounds of live weight each day, varying the amounts as conditions indicate by increasing the amount of grain when the animals are at hard work and decreasing the grain when they are doing light work or are idle," the bulletin continues.

"Ear corn and alfalfa hay alone are sufficient to maintain farm horses and mules doing a considerable amount of medium to hard work. However, more satisfactory arrangements may be made and perhaps more economical feeding practiced when part of the alfalfa or clover roughage is replaced with timothy hay, oat hay, oat straw, prairie hay or corn stover.

"Farm grown feeds need no special preparation, such as codiments of commercial mixed feeds, to be successfully fed to either horses or mules."

Save the bird in hand—
The others may be hard to catch

With enough money, enough time and enough luck, a man may get back the health he has lost—or part of it.

It takes patience, too. And then there may be no success, or only a little.

It's better to save what you have than hunt for what you've lost—as the most successful health-restorers will tell you.

Much of the loss of health is due to faulty, careless diet. Wrong meals at all times and right meals at wrong times load the long-suffering digestive

organs with elements of destruction, or starve the tissues and glands of needed elements.

Grape-Nuts is a delicious cereal food which has the qualities of scientific nutrition. It supplies the full richness of those splendid food grains, wheat and malted barley, together with the vital mineral elements, so often lacking from foods. Served with cream or good milk, Grape-Nuts gives full nourishment without over-loading the stomach.

A splendid thought for breakfast or lunch, for those who would keep health—

BOARD OF EDUCATION
IN REGULAR SESSION

Board Members Guests at Supper Served By Domestic Science Department of High School Tuesday Evening—Session Followed.

Members of the board of education were guests at a supper served in the domestic science department of the high school Tuesday night. Immediately following, a regular monthly session of the board was held. President Lippincott presided and all the members were present with the exception of Dr. C. E. Black and R. L. Caldwell. Very little other than routine business received attention.

Regular bills were ordered paid and the report of H. A. Perrin, superintendent, was read and approved. One interesting fact indicated in the report was that the amount of sickness in the schools now is surprisingly small. The need of paying Jordan street was before the board and the plan was approved. Several bills for furnishing and equipment which have been held pending the approval of the architect were ordered paid.

Members of the board all expressed themselves as very much pleased with the courtesy extended by the domestic science department.

OPERETTA WAS STAGED
AT LIBERTY HALL

Presentation of Operetta "Pocahontas" Tuesday Night Was Great Success—Large Audience Present

Students of Rount College and the parochial school presented the operetta, "Pocahontas" at Liberty hall Tuesday night. The interest in the production was such that the audience filled the great auditorium. The production was staged under the direction of Miss Margaret Ring and was in every way successful.

The story of Pocahontas was based upon facts in early American history and the narrative is very prettily told. The members of the cast all acquitted themselves with credit and the production was one of the best that has been staged locally.

Music of course occupied a very large place in the production and the solo and chorus work was of a quality to command the enthusiastic approval of the great audience. The story of the operetta, together with the names of those appearing in the cast, was published yesterday.

Walter and Archie Brockhouse visited over Sunday with their parents Mr. and Mrs. Sam Brockhouse.

ST. LOUIS HAS MANY
BASEBALL PLAYERS

Claims to Have More in Organized in Any Other City—Range From Majors to Smallest Leagues.

ST. LOUIS, Mo., Feb. 6.—St. Louis claims the distinction of having among the largest number of baseball players on the reserve lists of major and minor leagues of the country. Statistics show there are nearly two score of St. Louis players on teams from Class AA to D.

Of the total, almost one-third are in the three Class AA circuits, the American association, the International and Pacific Coast leagues. Of the athletes mentioned on the minors lists, two are prospects for a trip south with the St. Louis National League Cardinals, Jewell Ems, third baseman for Syracuse last season, and Ray Blades, who played with Houston. One other may be given an opportunity in the big show. He is Eddie Neusel, who was purchased by the New York American League from the Coffeyville, Kansas club.

Andy High is reported due for a trial with Brooklyn, after a successful season at third base for Memphis.

A number of local players have had trials in the majors. Among them are Douglas Baird, Walter Rehg, Cliff Brady, Maurice Archdeacon, Walter Schultz, Dee Walsh, Hugh High, Harry Lunte, Johnny Brock, Roy Blades, Larry Swadina and Artie Dunn.

Olle O'Mara, who jumped the Indianapolis club, is still carried as an ineligible player. Frank Lauckenau is on the suspended list of the Memphis club.

Among the list of St. Louisans on the reserve lists are:

American Association—Johnny Jones, St. Paul; Thomas Estell, Louisville; Douglas Baird and Walter Rehg, Indianapolis. Olle O'Mara, ineligible.

International League—Cliff Brady, Jersey City; Maurice Archdeacon and Theodore Hawk, Rochester; Jewell Ems and Walter Schultz, Syracuse.

Pacific Coast League—Dee Walsh, San Francisco; Hugh High, Vernon; Harry Lunte, Sacramento.

Southern Association—Gil Meyers, New Orleans; Frank Zoellers, Little Rock; Emmett Mulvey, Mobile; Andy High, Memphis; Frank Lauckenau, suspended.

Western League—Bill Feuerborn, Tulsa; Ray Hawk, Oklahoma City; Ray O'Brien, Omaha.

Texas League—John Brock, San Antonio; Ray Blades and Joy Doyle, Houston; George Allerdisen, Beaumont.

Virginia League—Jimmy Brannigan, Tarboro.

Three-Eye League—George Kerr, William Tatum and Charles Goss, Terre Haute; Ted Menze, Peoria.

South Atlantic League—Harry Swadina, Charleston.

Southwestern League—Raymond Bonifer and Taton Federle, Muskogee; Guy Froman and Eddie Neusel, Coffeyville; Joe Hann, Arthur Dunn, Ray Flashkamp and Joe Bockskoph, Miami.

Other Changes Have Been Made on the Grand Circuit—Eliminate Lake Erie and Short Ship Circuits.

CLEVELAND, O., Feb. 6.—Harness racing on the Grand Circuit tracks this year will be conducted under vastly different conditions than in 1921. National trotting associations failed to make any material changes in the racing rules.

Probably the most important change is the discarding of the three heat plan of racing by the grand circuit and also the Lake Erie and Ohio short ship circuits. The latter two circuits held their annual meetings here following the grand circuit.

The three heat plan, primarily arranged to prevent laying up of heats and similar unfair practices, finally developed unpopularity through being used as the means of carrying on just what it was intended to eliminate. Frequently a race was won before the final heat was even started and then the race winner would take things easy in the final heat, giving the entire contest a bad aspect. The plan of not having the winner of the first two heats contest the third heat did not prove satisfactory to the race goers in general, many not being able to understand the plan.

The grand circuit stewards at their annual meeting here went on record as being against the three heat plan of racing and all the members pledged themselves to pass up the system in favor of the two in three heat plan and also adopted a recommendation to the rules committee of the parent racing associations that the three heat plan be abolished.

That action means that the grand circuit classics will this year be raced on the two in three heat plan and that many of the half mile tracks will follow this plan.

ANOTHER COLLEGE
MAN 'FESSES UP

CHICAGO, Feb. 7.—According to Director A. A. Stagg of the University of Chicago, Cletus Dixon, captain of this year's baseball team, has admitted playing baseball on a team in Iowa but did not receive any remuneration for his services.

Dixon played first base on the Newell, Iowa team, it was said, and also worked in a restaurant and received a salary of \$20 a week and his meals. Before he started to play he asked for and received permission from Director Stagg to play ball in the summer.

The Midway director has the names of the teams which Newell played with and is seeking information from all sources to substantiate the story of his baseball captain. Director Stagg, however, will not place his stamp of approval upon the diamond leader's story until his investigation is completed.

BASEBALL MAGNATES
GATHER FOR MEETING

(By The Associated Press)

WASHINGTON, Feb. 7.—Baseball magnates of the American League were gathering here preparatory to the meeting of the league tomorrow to ratify the schedule as drafted for the 1922 season.

Club owners who had arrived tonight almost without exception predicted a quiet session devoted almost entirely to routine business. There were prospects however of some discussion of plans for effecting restoration of the draft and also there was the usual talk of imminent trades of players. The only deal of which the magnates had any definite information concerned the New York and Detroit clubs, an even in that case the names of players involved were a matter wholly of conjecture.

The magnates, it was said in some quarters, probably would visit the white house to pay their respects to President Harding who is somewhat of a baseball fan before beginning their session scheduled for afternoon.

The meetings here tomorrow will be the first the league has ever held outside New York or Chicago.

Boilermakers Lose First Conference Game at Urbana—Final Score Is 29 to 28.

Urbana, Ill., Feb. 7.—Purdue dropped its first conference basketball game to the University of Illinois 29 to 28 in a fast game here tonight. Popken's free throw with a half minute to play defeated the Boilermakers. Gudon, Purdue's rangy center was the star of the evening his seven field goals and as many free throws keeping his team in the lead most of the second half.

It was anybody's game during the last five minutes of play, with Carney, Popken and Sabo rearing for Illinois. The first ended 15 to 15 but Purdue's spurt at the start of the second period put them five points ahead. Each team showed excellent guarding ability in the second half.

PROMINENT SCOTT
COUNTY MAN IS DEAD

Death of Charles Oakes Came at 1:30 Tuesday Afternoon at Home in Bluffs—News of Death Comes as Shock to Many.

Bluffs, Ill., Feb. 7.—The death of Charles Oakes, one of the most prominent citizens of Scott county occurred at 1:30 o'clock Tuesday afternoon at his home here. Mr. Oakes was president of the Bluffs Bank, a large land owner and in various ways interested in the business affairs of this county.

The cause of Mr. Oakes' death was paralysis agitans in acute form. Altho the deceased had been in failing health for nearly a year, it was not until four weeks ago that he remained away from his office at the bank, stating that he felt the need of a rest. However, while in his home he kept in direct touch with business affairs, and was really active until a very few days ago. Then it was his condition was recognized as serious.

Mr. Oakes was sixty-nine years of age and is survived by his widow, Mrs. Anna Oakes. Two brothers, Henry and Royal Oakes, preceded him in death.

The deceased was a man of sound business judgment and his success thru the years was attributable to his vision and untiring industry. His death comes as a shock to people of the town and county, where he had held such an important place for many years.

Arrangements for the funeral have not yet been made.

OF W. W. CARTER BEGINS

Coroner Rose Empanelled Jury to Hear Evidence as to Cause of Fatal Accident Monday.

Inquiry into the death of Wallace W. Carter was begun Tuesday when Coroner Charles A. Rose empanelled a jury. Evidence of the trainmen and some others was taken and the hearing was continued.

The jury includes William Batz, foreman; C. L. Mathis, Amos May, William Peters, A. H. Bennett and Louis Lenzig. After the members of the jury had examined the body at the Reynolds mortuary the session was held. Subsequently a trip was made to the crossing in Joy Prairie neighborhood where the accident occurred.

E. Hill, traveling engineer of the Burlington; A. E. James, and G. B. Walker, respectively engineer and fireman of the train, were the witnesses. These witnesses all testified that the engineer blew the whistle for the crossing and the bell was ringing. The testimony of the three witnesses mentioned was in substance as follows:

Testimony of E. Hill. E. Hill, said: "I reside at 1300 Monroe street, Beardstown, Ill. Am traveling engineer for the Burlington railroad.

"I was on Engine No. 408, Train No. 11, northbound, C. B. & Q. passenger, which left Jacksonville at 3 p. m. I did not see any automobile but heard the crash. It was at the first crossing south of Joy Prairie. As near as I could tell the train was going in a northwest direction at a speed of about 35 miles per hour.

"The only sound I heard was the engine whistling. The engine whistled twice, the bell was ringing also. It is an automatic bell, ringing until shut off. The railroad crossing and wagon road are practically level and there are no obstructions to hide the view.

"I was sitting on the front end of the fireman's seat box on the left hand side of the engine. It is my duty to see that the engineer properly whistles for the crossing, which he did. And at this time I looked toward the crossing, but did not see any car in sight. The engineer applied the emergency brake at once on seeing the car. The engine was then about twelve feet from the crossing. The train went about 150 feet after the emergency brake was applied. I saw no one at the crossing at the time of the accident, but the occupants of the car had slid out of the car. We backed up at once and got the stretcher out of the baggage car and placed the lady on it. Also picked up the deceased and placed him in the baggage car. He was alive at that time. We took the train to Joy Prairie, there to get permission from the dispatcher to bring the train back to Jacksonville."

The Engineer's Story. A. E. James stated: "I reside at 1012 Washington street, Beardstown, Ill. Occupation, engineer for C. B. & Q. railroad. Engine No. 48, pulling train No. 11, northbound on Feb. 6, 1922, left Jacksonville at 3 p. m.

"I was the engineer which struck the car. I did not see the car until it was about 6 feet from me. It was 3:12 p. m. when the car was struck. I was on the right hand side of the engine and could not see the left side of the road. On seeing the car I applied the emergency brake at once, whistled twice for the crossing. There is nothing to obstruct the view of the crossing. I have been engineer on this run for the last four years. The train ran about 150 feet after I had applied the emergency and air brakes. The lady was thrown out of the car, but the man was in the car. The car was thrown about 12 feet from where it was struck. After loading the man and woman we went to Joy Prairie to get orders to back to Jacksonville. It took about 30 minutes from the time the car was hit until we were back in Jacksonville with the bodies. The man's head was against a fence post, his feet being caught in the car. It took two men to pull him out of the car."

Fireman Testifies. G. B. Walker stated: "I reside at 510 Clay street, Beardstown, Ill. Am

fireman on C. B. & Q. railroad. On Feb. 6, 1922 was firing Engine No. 408, pulling Train No. 11 which left Jacksonville at 3 p. m. I was standing in the deck of the engine putting in a fire when we struck the car. I did not see any car coming as the deck is so low. I could not see out and did not have time after firing. The engineer sounded the Standard Grade crossing whistle. I am on the lookout at crossings whenever it is possible to do so, but sometimes I must be putting in a fire when at a crossing. There is nothing in my opinion to obstruct the view of the crossing."

CLUBS AND SOCIETY

Mrs. Blanche Barnes Celebrated Birthday.

A number of people gathered at the home of Mrs. Blanche Barnes on Doolin avenue Monday evening, the occasion being her birthday. The evening was spent in a social way several piano solos were given by Mrs. Barnes and Mrs. Hicks. Reading "Mary's Little Lamb" by Mrs. Nellie Winstead was much enjoyed. The hostess received many nice but useful gifts from the ladies and these were presented to her by Mrs. James Sheppard. Among the gifts was a beautiful white sweater which was admired by all. Those present were Mrs. James Sheppard, Mrs. Tot Hennessy, Mrs. Sperry, Mrs. Winstead and daughter, Miss Nellie; Mrs. Hicks, Mrs. Bessie Preston, Mrs. Grace Aton. The guests departed at a late hour wishing Mrs. Sheppard many more birthdays.

Lincoln Program at Strawn's Club.

The Strawn's Crossing club met yesterday afternoon at the home of Mrs. Clifton Corrington of South Main street. The program for the day was on the life and times of Lincoln and the members opened the program with quotations from the great American. "The Romance of Lincoln and Anne Rutledge," was the subject of Mrs. Frank Hunter's paper and Mrs. Harry Foster gave the biography of Stephen A. Douglas. A pleasant social hour followed the program and the hostess served dainty refreshments. Mrs. Corrington had invited a number of guests, for yesterday's meeting among them, Mrs. Harry Rice, Mrs. Ed Tindall, and Mrs. J. W. Arnold from east of the city; Mrs. M. R. Fitch, Miss Alleen Fitch, Mr. Charles Cully, Mrs. Zella Cox, Miss Catherine Kaiser, Miss Sue Cassel, Mrs. William Ehlers, Mrs. A. L. Strandberg, Mrs. R. R. Wood, Mrs. Hulett and Mrs. Frank Piepenberg from Jacksonville.

Host to Friends.

Theodore Goveia was host to a number of his friends last evening at his home on Doolin avenue. About ten couples were invited and the time was enjoyably spent with cards and dancing. During the evening an attractive supper was served.

Will Go to Springfield Next Sunday to See General Pershing and Vice President Coolidge.

The Boy Scouts of Jacksonville who are to go to Springfield next Sunday to see Gen. Pershing and Vice President Coolidge are looking forward to the day with great interest. The vice president and General Pershing have been invited to Springfield to participate in the public celebration of the 113th anniversary of the birth of Abraham Lincoln. The celebration is to be under the auspices of the Mid Day Luncheon club with the Springfield churches co-operating.

During the day General Pershing will be taken on a special train to Old Salem and be the guest at a dinner under the auspices of the Old Salem Lincoln League, given at the Christian church. The general will return to Springfield in the afternoon, arriving about the time that Vice President Coolidge reaches the city. The two distinguished visitors will be taken to the Lincoln home.

At 6 o'clock an informal dinner will be given for them and in the evening the public program will take place at the arsenal. Congressman Richard Yates will be the chairman.

Music will be furnished by a chorus choir made up of singers from the various churches. The temporary chairman of the meeting will be Congressman James M. Graham.

Governor Small, Rev. E. B. Rogers, president of the Springfield Ministerial association, and William R. McCauley, state commander of the American Legion, will have brief parts in the program and then will come the addresses by Vice President Coolidge and General Pershing.

the people can avail themselves of books. She asked that any friends here in Jacksonville who have books that they would be willing to give to this library, would send them out to Edgmont. The books are greatly needed and would be much appreciated.

After the letter had been read the meeting adjourned to a social hour and excellent refreshments were served. Mrs. Ed Spink was the hostess for the day.

Trinity Guild in All Day Meeting.

The members of Trinity Guild held an all day session yesterday in the parish house and the meeting was well attended and successful in every way. At noon a most delicious luncheon was served by a number of the ladies. The hours yesterday were given to sewing on blankets for Passavant hospital and on aprons for the Easter Sale.

East Side Club Meets at Brown Home.

Mrs. J. W. Brown was the hostess at the regular meeting of the East Side Tuesday Club yesterday afternoon at her home on Routt street. Mrs. M. R. Range had the first paper of the day taking as her subject "The Woman Citizen," in which she told of the responsibilities and privileges of the modern American woman as a fully franchised citizen of her country.

"Has Woman Made Good in the Business World," was the topic of the other paper by Mrs. O. N. Barr. Each member answered roll call by giving the name of some successful woman.

A delightful social hour came at the close of the afternoon and the hostess served dainty refreshments. Mrs. Brown had invited a number of Jacksonville guests for the meeting.

Bridge in Honor of Miss Carr.

Mrs. Frank Rexroat and Miss Marie Rexroat were hostesses at a charming bridge party given yesterday afternoon in honor of Miss Margery Carr of Belleville, Ill., who is a guest of Miss Catherine Cain. The affair was given at the Rexroat home on West State street and about twenty guests were invited. After the hours of playing a dainty luncheon was served. Tulips were used in table decorations and attractive St. Valentine favors and decorations carried out the idea of Dan Cupid's Day.

GREAT THROG AT REA SALE TUESDAY

Large Amount of Personal Property Sold—Bidding Was Spirited and Prices as a Whole Satisfactory.

More than 2,000 people attended the sale of the personal property of the late T. E. Rea, held at the Rea farm one mile west of Woodson. The sale began at 10 o'clock in the morning and altho the auctioneers worked with great rapidity, the final offering was not made until nearly 6 o'clock. The clerks had not made an accurate total of the sales last night, but it is known that the total will be in excess of \$10,000, which was the appraised value of the personal estate.

J. Weir Elliott and John W. Rea are the executors of the estate. The auctioneers yesterday were J. L. Henry of Jacksonville and Lloyd Sealey of White Hall. The clerks were Frank Flynn and Charles McDonald. Lunch was served by the ladies of the Woodson Christian church, and the attendance was so large that the ladies were compelled to replenish their supplies a great many times.

Forty-four head of horses and mules were sold, at a total of \$4,625. The highest priced span of mules went to W. F. Ellington of Roodhouse, for \$450. Corn sold at prices from 40 to 43 1-2 cents per bushel, between 4,000 and 5,000 bushels being offered. Oats prices ranged from 31 to 36 cents per bushel, while clover hay brought 67c a bale and timothy 61 cents a bale.

A great many implements were sold and all at satisfactory prices, for they were of good quality and in such a large gathering the bidding was spirited. The total of the sales did not reach the Morgan county record in dollars but certainly not for a great many years has so much personal property been offered at one time, and no larger company of bidders is recorded. The sale, with a push, indicative of the feeling among farmers.

Among representative sales are the following:

Oscar Boston, binder, \$110. Frank Drury, corn sheller, \$155. Albert Hayes, 5 cows at \$50, \$45.50, \$43.50, \$41 and \$44. Walter Patterson, cow, \$41. J. E. Osborne, sheep, 12 head, at \$5.75; 13 head at \$6.50.

Mules.

Bert Spainhower, span, \$700. Bert Spainhower, span \$352.50. W. F. Ellington, span, \$450. J. W. Kyder, span, \$397.50. Vernon Baker, span, \$230. J. W. Ryder, span, \$217.50. A. T. Kinner, span, \$177.50. E. B. Harney, span, \$190. William Arnold, span, \$185. Vernon Baker, span, \$257.50. Otto Grimmer, span, \$285. Russell Miller, span, \$265. John Rea, spans yearlings at \$132.50, \$120, \$110 and \$100.

Other Sales.

Walter Fearneyhough, 2 sows at \$18.50. Allen Russell, 4 gilts at \$27 and 4 at \$30. John Costello, 4 gilts at \$33. Julian Sheppard, 4 gilts at \$26.50. John Lewis, 7 shoats, at \$7.10. Vernon Baker, horse, \$110. J. H. Smith, horse, \$100. John Rea, 18 sows at prices ranging from \$36 to \$50.

MRS. CARTER SHOWS SOME IMPROVEMENT

Word from Passavant hospital at an early hour this (Wednesday) morning, was to the effect that Mrs. Wallace W. Carter, who was injured in an accident Monday, had regained consciousness and was resting comfortably. Unless unforeseen complications set in she will likely recover.

LOCAL ROTARIANS WENT TO SPRINGFIELD TUESDAY

A group of Jacksonville Rotarians accepted the invitation of the Springfield club to be present at a luncheon Tuesday and greet Harry Lauder. The luncheon was served at the St. Nicholas hotel at 12:15 and afterward the famous Scotchman was introduced and gave a brief address.

Lauder is an enthusiastic Rotarian and he had a special message for the organization. As a part of the program Dr. E. B. Rogers, representing the club, presented Lauder with a set of Herdon's Life of Lincoln.

The Jacksonville Rotarians who made the trip were L. T. Hamilton, Charles Fiedler, Leo Magill, F. M. Tomlinson, A. R. Taylor and C. J. Buhrer.

FRANKLIN COUPLE WILL CELEBRATE ANNIVERSARY

Seventy-five or more relatives and friends will be present today to assist Mr. and Mrs. Twydel W. Deer, long time residents of Franklin in celebrating their 50th wedding anniversary. A number of local people will attend.

POULTRY FLOCK FOR T. B. SANATORIUM

Pisgah Women Start "Give A Hen Movement"—Hope All Parts of County Will Respond.

A movement has been originated in Pisgah precinct which should result in the furnishing of a fine flock of poultry for the tuberculosis sanatorium. Mrs. A. A. Curry made the suggestion in her home precinct and each country housewife interested in the project is asked to donate one hen for the flock. The Pisgah people are hoping that the movement will be taken up in various communities throught the county, believing that in this way a good sized flock of poultry can be supplied the sanatorium without a financial burden upon any one.

In order to make definite progress with the program the Pisgah people are asking those who attend the entertainment at Union Baptist church at Pisgah, Sunday night to bring along hens they are willing to donate to the sanatorium cause.

This entertainment by the way, promises to be quite a unique event, as one of the main features will be a debate on the theme, "Resolved, That Cooking is no more the Sphere for a woman than for a Man." The affirmative will be upheld by Mrs. A. A. Curry, Mrs. Edward Bingman and Mrs. Homer Wood. Very properly the negative will be supported by the husbands of the affirmative debaters, and Messrs. Curry, Bingman and Wood will tell the world why they are opposed to any new arrangements in this matter of household cookery.

Refreshments are to be served following the debate, the committee in charge including Garfield Rogers, Albert Curry and Leonard Wood, and an evening of great pleasure is promised the Pisgah people.

ELKS, ATTENTION!

TWO FIRE ALARMS

The fire department was called to the residence of William Douglas, 802 Spates street, at 9:30 o'clock Tuesday morning where fire had started in the roof by sparks from a chimney. The damage was slight.

A roof fire called the department to the home of Frank Selby, 1200 South Clay avenue Monday evening at 6 o'clock. This also was a roof fire and the damage was small.

IN MEMORIAM

The following lines were written in memory of Veda Lucile Howard who was but recently called to her reward.

Never strong, she was unable to withstand so long a season of affliction. But her soul within was stronger far than the frail tenement of clay wherein it dwelt and the patience and christian fortitude with which she bore sickness and suffering were like unto one grown older in the service of the Master and the trials of life.

Here was a nature serene and cheerful; one that could but leave a lasting impression upon each life with which it came in contact. Gentle manner, childlike purity, perfect sincerity and sweet simplicity were characteristic of her being. Those present never received from her a harsh word and the absent one never an unkind expression. Her sole regret, especially during her illness, was that she was unable to do for others who were doing so much for her. Up to the last few weeks of her life she was hopeful, but realizing that her final summons had come she calmly gave her friends the comforting assurance that there was naught to fear and that she would soon be with Jesus and with her earthly father who had preceded her. So, she peacefully closed her eyes upon this transient epoch of existence and tranquilly passed through the open portal into the broader, grander avenue of life. Today over our home rests a shadow, Since one whom we all learned to love.

Who cheered our lives with her pleasant ways.

Has passed to the mansion above. We mourn, for so sadly we miss her; To us she was ever so dear; But dear to the heart of the Saviour, too.

Are the lives of His loved ones here.

When kind human hands and tender hearts

Had tried, but tried ever, in vain, God sent His Gentle Messenger, Death.

To bring comfort and soothe her pain. She calmly answered his whispered call.

"Thy work on earth must cease; Thou hast faithful been, hoped long enough, Come rest with me in peace."

With Him who guards our varying path.

Who leads us each step of the way, And guides us through this changeable life.

To her realm of eternal day. How sweet to know, when life is o'er And death has eased our pain, We've a home eternal, bright and fair, Where we may live and love again.

Though our hearts are sad, faith sees a star.

When these earthly ties are riven, Not broken, but, removed from earth, Made stronger ties in Heaven.

O, joy sublime! In bliss supreme, There where the ransomed are She'll wait with the angelic throng, Till we shall cross the bar.

—Mrs. C. R. Hale, Decatur, Ill.

INCOME TAX FACTS

Deductions for depreciation form an important item in the return of many taxpayers, and are the subject of frequent inquiries. The word "depreciation" is not used in the revenue act of 1921, which provides "a reasonable allowance for the exhaustion, wear and tear of property used in trade or business, including a reasonable allowance for obsolescence."

In claiming depreciation the following fundamental principles must be observed: Only such depreciation as results from exhaustion, wear and tear of property resulting from its use in trade, business, profession, or vocation is allowed. Depreciation in the value of a home or property such as an automobile used for pleasure or convenience can not be claimed.

Depreciation due to changes in the social or business condition of a neighborhood, or changes of street grade, or fluctuations of market values can not be claimed. Depreciation in the value of land, whether improved or unimproved, due to erosion, exhaustion, or any other cause can not be claimed.

When in the course of years, the owner of property has claimed its full cost of depreciation, no further claim will be allowed.

The value to be cared for by depreciation is the cost of the property. However, in the case of property acquired prior to March 1, 1913, the deduct shall be computed upon the basis of its fair market price or value as of March 1, 1913.

Depreciation may be claimed on all business property which includes not only buildings, but machinery of a permanent character, automobiles, farm tractors, mine and mill equipment, office furniture and books.

How Computed.

To compute the amount of depreciation which may be claimed, a taxpayer should determine the probable life of the property, then divide by the number of years it will be usable in the business in which employed. The result thus obtained will represent the amount which may be claimed as a deduction. For example, a frame building the probable lifetime of which is 25 years cost \$5,000. Divide \$5,000 by 25 and claim \$200 each year as a deduction.

While each taxpayer may determine the probable lifetime of his property without regard to the following figures, it has been estimated that the average usable lifetime of a frame building is 25 years; a brick building 35 years; a stone or concrete building 50 to 100 years. The estimated life of ordinary machinery, that of automobiles used for business or farm purposes and farm tractors 4 to 5 years.

If a taxpayer claims the full amount of depreciation, he can not claim as a deduction the cost of repairs to the property during the same year. "Repairs" in this connection means repairs and replacements of a kind tending to make good, the depreciation, such as a new flooring or a new roof. If the taxpayer wishes to claim a deduction on account of repairs, their cost must be deducted from the full amount of depreciation and the balance may be claimed as depreciation.

Deductions for depreciation must be made as a separate item of the return, and must be explained by showing separately each class of property, its cost or value at the date of purchase (fair market price or value as of March 1, 1913, if acquired prior to that date), estimated life, depreciation charged off for the taxable year, and total depreciation charged off for all taxable years.

DIAMONDS As an Investment

A Little Chat About Diamonds

No reduction in the price of diamonds is in prospect—That is the official word cabled to this country from the London Diamond Syndicate. Dealers must buy the GENUINE diamonds at those prices, or go without. A GENUINE diamond of flawless quality always brings its original price, and frequently more.

There has been some reductions made on "Diamonds" but even the uninitiated knows that these cannot be quality stones.

There are on the market nineteen grades of diamonds for jewelry and mechanical purposes, but you can easily count on the fingers of one hand the grades that spell q-u-a-l-i-t-y and constitute a real investment. And we are able to show a number of beautiful and remarkable stones of this latter class.

Next week we shall tell our patrons something about jewelry prices.

Take the Gamble Out of Your Life Insurance

Your life insurance policy guarantees to pay your wife a lump sum of money upon your death. But the company does not insure or guarantee in any way that she will invest this wisely or safely. Under this form of insurance you have absolutely no assurance that the insurance money you have so carefully provided for her will do what you intended, namely, provide her an income for life.

Fortunately, it is possible today for a man to take this element of chance out of his life insurance and arrange for the insurance company to give his wife a check every month after his death as long as she lives. This is safer, wiser, and in addition will cost you from one-fourth to one-third less than the kind of insurance you have been accustomed to. If you have an adequate amount of insurance, arrange with your company to put a part or all of it on the Monthly Income basis. Otherwise, fill out and mail the attached coupon and see if the Monthly Income Policy will help you in any way. It will cost you nothing to investigate and will obligate you in no way.

OLD JACKSONVILLE

THE ACADEMY AND "SENTINEL"

(BY ENSLEY MOORE)
Member Illinois State Historical Society

THE Academy and "Sentinel." Another scrap has turned up. This is part of a single column of "The Sentinel," dated Jacksonville, August 22, 1885. William H. Coyle, Editor and Proprietor. Under the announcement of the paper, itself, is this:

HUGH LAWSON WHITE,
The People's Candidate.

This is followed, on the Editorial (Second) page apparently, by the sub-joined article about the Academy.

First—This description of the paper, not to be confused with Mr. J. R. Bailey's "Sentinel" of 1855 and late, is given in Prof. Frank W. Scott's invaluable "Newspapers and Periodicals of Illinois 1814-1879."

"Liberty's Sentinel, August, 1835—? Edited by William H. Coyle. Devoted to the interests of the Federal Party. 'Probably short-lived.'"

The leading matter, in this scrap is:

JACKSONVILLE FEMALE ACADEMY.

We were highly gratified by an attendance at the quarterly examination of the Female Seminary, held in the afternoon of the 14th inst. The spotless cleanliness of the rooms and furniture immediately attracted our notice on entrance—no scraps of paper, or stumps of pens, which too frequently are the litter of our school-rooms, imparted an idea of cleanliness to the visitor—scribbling on the desks or whitening the floor, we at once discovered formed no part of the system of education there. Though this by some may be deemed too trifling for remark, yet in our view as an evidence of neatness and order, it certainly has its effect—exhibiting a method and purity which predisposes a belief of its existence in matters of more moment, and at the same time exerts a wholesome influence on the mind of the pupil. The course of examination was extensive and thorough—History, Biblical and profane, geography, botany, grammar, reading, &c., being severally the subjects of strict and systematic investigation. The questions were pointedly and clearly put and answered with promptness and correctness, alike flattering to the diligence of the student and the discipline of the teacher.

The Academy is yet in its infancy—having only been incorporated at the last session of the Legislature—and this being its first chartered term. The present number of pupils is from 20 to 25—more than double this number are expected the next term. Its course of studies is liberal and the same generally with those of the high schools of the east. In looking over the bill of incorporation we observe that all sectarian principles of religious instruction is prohibited by a forfeiture of rights.

The building is a three story brick, capable of accommodating twenty or more boarders—this however is intended merely as a wing to the main building. A respectable family occupy the house, and design providing for boarders. Of the Superintendent of the Academy, Miss E. P. Price, it is enough to say that she was the choice of her predecessor, Miss Crocker, from a celebrated school at the north, and has proven herself every way equal to her station. A superior Seminary for the instruction of young ladies in a sound and refined education, we may safely say exists not in our State. We invite the attention of parents to its advantages.

We take pleasure in subjoining the following answer from the talented teacher to an enquiry of the general principles upon which the School is conducted—They will commend themselves at once to the reader—the style, too, and diction in which they are conveyed, gives lustre to their merit.

JACKSONVILLE FEMALE SEMINARY.

The object of this institution is to assist the pupil in estimating her own capacities for improvement, and in so developing them, as to render her mind "the fittest instrument for discovering, applying and obeying the laws under which God has placed the Universe."

Believing that Education does not consist merely in storing the mind with knowledge, or in cultivating the moral feelings, or unfolding the reasoning faculties, in developing the physical powers, or in the forming of the manners, but in all these combined, the course of study, pursued will be such, as seems best adapted to promote this object. This course, as far as practicable, will be thorough and systematic. Believing also that the mind is incapable of entering at once upon a solution of abstract questions relating to any science without a knowledge of the principles of that science, it is deemed an object of primary importance to commence with elements, gradually proceeding to questions most difficult of solution.

The plan of the School embraces the formation of regular classes, ultimately, which plan will be adopted as soon as circumstances will admit.

The course of study, from term to term, will of course be modified as the general knowledge of the School varies from term to term; this however will not necessarily derange the general plan of the School.

Some of the studies embraced in the course are: The Bible, Reading, Vocal Music, Composition, Botany, Modern Geography, Arithmetic, Euclid's Geometry, History of the United States, English Grammar, Watts on the Mind, Physiology of the Human System, Callisthenics, Natural Philosophy, Government of Illinois and the United States, Ancient Geography, Modern and Ancient History, Mental Philosophy, Rhetoric, Chemistry, Astronomy, Algebra, Ecclesiastical History, Natural Theology, Moral Philosophy, Evidences of Christianity, with such other studies from time to time as may promote the general improvement of the School. Spelling and writing will receive thorough attention where there is a deficiency.

(Miss) E. P. PRICE, Principal.
Jacksonville, Aug. 20, 1835.

Miss Price, the Principal of the school, was named Elizabeth P. Price.

Local Advertisements

On the other side of the scrap under consideration are:

Some land and town lots for sale by John H. Barton, Com'r.

Carlton H. Perry's notice of Administrator's sale of property of the estate of David Dinsmore, lately deceased.

Also John White's notice referred to in last week's "O. J." of administration of Thomas Smith's estate; this being a petition for order to sell real estate of said Smith.

"R. William Dummer, Attorney at Law, Office corner of State and West streets, Jacksonville, Morgan County, Illinois."

William Atkins for some young animals which had strayed away, from Six Mile Prairie, Madison County, Illinois, about the 20th of April, 1834.

Frederick Collins, of Naples, gives a notice as Executor of the Estate of his brother, Anson Collins.

Next comes an ad of Falmesbrook's Vermifuge, at considerable length—the valuable medicine being for sale by O. P. Cobb, Agent, Naples, Illinois.

This had endorsement by eight persons, residents of Allegheny county, (Pennsylvania?), and probably Pittsburgh.

The last (piece) of these items is Dr. L. Turnbull's announcement that he "will publish in the course of a month or six weeks, The Illinois Form Book and Practical Guide."

The publisher goes on to give in detail heads of the valuable information his book, of about 400 pages, would contain.

And this is all that the fifteen inches of old scrap hands down.

CLOSING OUT SALE

I will hold a closing out sale Thursday, February 9, at my farm southeast of Woodson, of horses, hogs, cows and farm implements.

PLANNING FOR BIG HIGHWAY MEETING

Local Good Roads Enthusiasts Getting Ready to Attend Springfield Meeting February 13th.

Plans for a big delegation of Jacksonville motorists to attend the Ocean to Ocean Highway meeting to be held in Springfield Illinois, on February 13th are progressing rapidly. The fact that General Pershing will be the principal speaker will aid in securing a large representation.

It is the hope of the Chamber of Commerce to be able to have one hundred cars go to Springfield which would mean four or five hundred people to attend the meeting. The cars will organize on the square about eight o'clock the morning of the 13th, in order to get to Springfield at 10 o'clock.

H. A. Scheidker, secretary of the Hannibal Chamber of Commerce, has been communicating with the local Chamber in regard to this meeting urging that Jacksonville do its utmost to have a large representation, so that the hard road projects thruout this section will be pushed to the limit because of the interest shown.

REHEARSALS FOR K. C. MINSTRELS

The cast for the K. C. Minstrel Show will meet Friday evening and begin rehearsals for the show which will probably be staged on February 27th, 28th and March 1. The first date will be for the school children and teachers, and the other two dates will be for the public. Miss Nelle Self and Albert Strausser are the directors of the show and an excellent cast of local talent will be chosen for the production. This is the second Minstrel Show that the Knights of Columbus have put on and from all indications this year's show will uphold the reputation established by last year's production.

TRAVELING MEN TO BE C. OF C. GUESTS.

The Chamber of Commerce get-together meeting for the traveling men of the city is to have a high class vaudeville act as part of the program. This has been arranged thru the courtesy of the Grand Opera House management. The program for that evening will also include several specialty numbers and music.

A big crowd is expected to attend as many of the traveling men have signified their willingness to attend. In order to help the men to get acquainted, identification cards will be worn on the coat lapels, giving the name of the man and the firm he travels for. The meeting is called for Friday evening, February 10th, at 7:30 o'clock, at the Chamber of Commerce headquarters. After the program a luncheon will be served and a smoker enjoyed.

J. W. HALL SUFFERS INJURY TO EYE.

J. W. Hall of Hall Brothers Implement store, was painfully injured and may lose his right eye as the result of an accident yesterday morning, which occurred in the office of the Hall concern.

Someone had thrown a small piece of solder in the stove used to heat the office. A few minutes later a lump of coal was thrown on the fire, causing the solder to splatter out of the stove hitting Mr. Hall in the eye. Several other men were splattered with the stuff, but Mr. Hall was the only one that was hurt.

He was taken to Dr. A. R. Gregory immediately, where the proper attention was given the injured eye.

Early surgery went hand in hand with shaving.

A UNION OF INTEREST TO WOMEN

Healthy Housewife---Happy Home

Lydia E. Pinkham's Vegetable Compound Has Helped Form Many

For the ailing, half-sick housewife such a union is impossible. Often times even the slightest form of housework cannot be accomplished. Yet the work must be done. Many women struggle along for years suffering from some form of female trouble that makes their lives miserable and their homes far from happy.

Lydia E. Pinkham's Vegetable Compound has helped thousands of just such women regain their health and strength. Just give your thought to the following letters and remember that the women who wrote these letters knew how they felt before taking the Vegetable Compound and again afterwards. It helped them—let it help you.

Had Nervous Spells
Horatio, Ark.—"I had nervous spells and awful bad feelings. My right side and my back hurt me all the time and I had been going down in health for six or seven years. For three years I had not been able to do my work without help. I weighed only 95 pounds when my husband's mother persuaded me to take Lydia E. Pinkham's Vegetable Compound. Now I heartily recommend it to all suffering women, as I have gained weight and health. I can do all my work, anything I want to do."—Mrs. JIM REARICK, Horatio, Arkansas.

New Orleans, La.—"I have found relief from my troubles by taking Lydia E. Pinkham's Vegetable Compound and I praise it wherever I go. I could not do my work as it should be done for I would sometimes have to lie down because of the pains I had. A friend induced me to take your Vegetable Compound and I have got great results from it. I keep house and am able to do all my own work. I recommend your Vegetable Compound to my friends who have troubles similar to mine."—Mrs. T. FOCKLER, 1915 N. Derbigny St., New Orleans, La.

ACTIVE DAY IN STOCK MARKET

By Associated Press.

NEW YORK, Feb. 7.—Expansion of bullish activities, involving further enforced settlement of short contracts marked another active day on the stock exchange. Many issues rose above best prices of 1921, but these were cancelled whole or in part by the profit-taking of the final hour.

Factors which stimulated the advance, aside from technical considerations, included liberal offerings of call money at five per cent in the open market and 4 1/2 per cent in private transactions, the easier trend of time money and more pronounced strength in the principal foreign exchanges.

Trading comprehended a greater variety of issues than at any period of the current movement. Erie issues were responsive to the company's good annual report and other junior rails, notably New Haven, Rock Island, Chicago, Northwestern and St. Louis Southwestern preferred, strengthened on what was considered good buying. Sales amounted to 800,000 shares. On the additional rise of sterling exchange demand bills on London sold at \$4.34 1/2, French, Italian and Belgian remittances rose four ten points and all other European quotations German and Danish rates excepted made similar advances.

Liberty bonds reflected less uneasiness in connection with possible new offerings and convertible railway bonds moved forward in sympathy with low priced shares of that description. British and other foreign bonds kept pace with the higher quotations for foreign exchange. Total sales (par value) aggregated \$14,875,990.

FATHER AND SON BANQUET THURSDAY

Centenary Church Will Observe Occasion Thursday Evening—A. C. Metcalf Will be Toastmaster.

The Annual Father and Son banquet will be held at Centenary church Thursday evening, February 9 at 6:30. While the event is called a "Father and Son" banquet, the attendance is not strictly limited to fathers and sons. All boys of the church, Sunday school, Epworth League, Boy Scouts or in any other way related to Centenary church are expected. A group of the men of the church has arranged to provide for all boys who come so that none need remain away because they have not been specifically invited.

A. C. Metcalf will be toastmaster and the following will speak: Principal—B. F. Shafer—"Our Boy Leaders." Pres. Joseph R. Harker—"Boys: Our Best Investment." Harold Hunter—"Our Fathers."

Albert Arter—"What a Boys' Dad Means to Him." Miss Ida B. Davis of Illinois Woman's College will read and the program will be interspersed with music.

WHITE HALL BUYS SITE FOR NEW HIGH SCHOOL

Board Purchased Seth N. Griswold Tract at Cost of \$10,000—Other News From White Hall and Vicinity.

White Hall, Feb. 7.—An unexpectedly favorable turn in locating the new district high school comes with the announcement of Louis Lowenstein, president of the board of education, that a deal has been consummated for the purchase of the entire Seth N. Griswold tract on North Main street at \$10,000, comprising five and one-half acres. There is a frontage on Main street of 240 feet, the residence being located about the center. By the laying of an U-shaped driveway from the north line of the Main street frontage and extending around to the rear of the house and terminating at the south corner of this Main street frontage, the new school building can be erected at the rear of the present Griswold garage with the most attractive surroundings.

This is the tentative plan now under consideration by the board of education, and the architect will, it is believed, be able to follow these suggestions closely. The residence will be in the center of this U-shaped driveway, and it will be available for a good many purposes, notably a home for the superintendent, an administration building, dormitory, nurse headquarters, aside from the demand from some quarters that it be converted into a public building. In the years to come this building will be available to meet the growing needs of the schools for recitation purposes.

The barn will be left intact also for the benefit of tuition pupils, it being large enough to accommodate eight cars under proper regulations. With all these provisions ample ground remains for athletic purposes, leaving intact the present familiar athletic grounds known as Griswold park.

The sum of \$10,000 for all this valuable property makes the finest deal that could be conceived. The house alone is worth this amount and more. In connection with the deal Mr. Griswold donates \$1,000 to the board of education, which makes the transaction represent really \$9,000. Mr. Lowenstein and the members of the board of education are enthusiastic over the outcome of the site proposition, and every expression of opinion so far rendered is the most favorable, largely because of the price asked rendering the acquisition of the site at practically a gift from Mr. Griswold. The plans on foot now are to provide the best high school in the county. It will be recalled that the late Mrs. Griswold was one of the staunchest supporters for better school facilities, but litigation over the matter did not enable her to live until the time when she could act as she wished, and the part now played by Mr. Griswold is as Mrs. Griswold would have wished to do. Some permanent testimonial to the Griswolds should accrue from this transaction, and will accrue if the sentiment of the people of the district is fully considered by the members of the board of education.

NOTICE TO TAX PAYERS
 The tax books are now in the collector's office and taxes extended stand as judgments against all parties mentioned therein.

Persons paying on personal property only should pay the tax promptly and avoid trouble and expense in collection. The judgment reads as follows: "In case any person named in said books shall neglect or refuse to pay their personal tax, you shall levy the same by distress and sale of goods and chattels of such persons." Parties paying on real estates should bring their old tax receipts to save time and avoid mistakes. If paying thru the banks, leave your old receipts with your bank as soon as possible.

Don't try to save money buying cheap or big-can Baking Powders. You can't do it. You'll throw out more in spoiled bakings than you save on price of the powder. And don't think that old style high priced powders are best because they cost most. They are not.

CALUMET BAKING POWDER

has proved in millions of bake-day tests that it is the best baking powder ever made—that's why it is the biggest selling baking powder in the world today. No other baking powder makes such temptingly good—tender, wholesome bakings. No baking powder of anywhere near the same quality is sold at such a low price.

You use less of Calumet—because it is the highest grade baking powder. One teaspoonful is equal to two teaspoonfuls of many other brands.

And there is no "luck" about it when you use Calumet. No loss. It is absolutely sure. It is the most economical of all. Millions of housewives use it—and so do leading domestic science teachers and cooking experts.

You save when you buy it. You save when you use it.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

NOTE THIS

A pound can of Calumet contains full 15 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.
